PROJECTS

- CourseHub: Student Study Material Platform** June 2025 – Sept 2025
Coding Club, IIT Guwahati Github
 - **Engineered** and **launched** a fully scalable study material platform using **React** (Frontend) and **Node.js** (Backend) to efficiently organize and present past papers, tutorials, and lecture slides, significantly enhancing resource accessibility.
 - **Managed** the continuous deployment and operation of the platform on **AWS EC2**, configuring **Nginx**, **PM2**, and **load balancers** to guarantee high availability and system reliability.
 - **Optimized** the **React-Node** stack performance to achieve rapid site loading times and deliver a fast, responsive user experience.
 - **Achieved** high user adoption, boosting access to study resources for **over 4,000 students** with a continuously growing user base, validating the platform’s utility and scalability.
- IITG HAB: Centralized Mess Management Platform** May 2025 – June 2025
Coding Club, IIT Guwahati Github
 - **Engineered** centralized admin and committee dashboards using **React.js** and **REST APIs** to manage mess menus, update schedules, and efficiently track attendance, streamlining operations for the Hostel Committee and HAB Admin.
 - **Deployed** the **Node.js** backend on **AWS EC2**, implementing **Nginx**, **PM2**, and **load balancers** to ensure high availability and scalability for the growing system.
 - **Developed** an interactive analytics dashboard using **React.js** and **Chart.js** to visualize clear trends in daily attendance (breakfast, lunch, and dinner), pulling real-time data from APIs to inform administrative decisions.
- Research and Industrial Conclave Website** May 2025 – Oct 2025
Research and Industrial Conclave, IIT Guwahati Github
 - **Oversaw** critical **WebOps** functions and infrastructure for the official RIC website, ensuring **high availability** and optimal performance to support peak visitor traffic.
 - **Engineered** an interactive homepage carousel featuring scrolling updates and event countdowns, significantly boosting visitor engagement and information accessibility.
 - **Developed 9 interactive event pages** complete with detailed descriptions, registration buttons, and **REST API integration** to facilitate seamless, real-time sign-ups.
 - **Implemented** the Accommodations and Attendee Registration modules, including necessary **backend routes** and **database integration** for the efficient capture and management of attendee data.
