PROJECTS

- CourseHub: Student Study Material Platform** June 2025 – Aug 2025
Coding Club, IIT Guwahati Github | Website
 - Architected and deployed a full-stack academic resource platform used by **4,000+ users**, enabling centralized access to lecture slides, tutorials, and PYQs across multiple branches and years using **React, Node.js, and Express**.
 - Designed a secure role-based access system with **authentication and branch representative privileges**, allowing controlled content uploads and management.
 - Deployed and maintained production infrastructure on **AWS EC2** with **Nginx (reverse proxy)**, **PM2**, and **SSL/TLS (Certbot)**, and automated deployments using **GitHub Actions CI/CD**.
- Campus Security Monitoring & Entity Resolution System** Sept 2025 – Oct 2025
Saptang Labs Product Development Challenge Github
 - Developed a responsive frontend using **React** and **Tailwind CSS**, building interactive dashboards and timeline visualizations for monitoring entity activity across campus.
 - Integrated frontend with backend services (**Node.js, FastAPI**) via REST APIs, enabling real-time querying, data visualization, and anomaly alert display.
 - Contributed to a scalable full-stack system combining multi-source data (CCTV, WiFi logs, card swipes), delivering a unified interface for security monitoring and activity tracking.
- Research and Industrial Conclave Website** May 2025 – Oct 2025
Research and Industrial Conclave, IIT Guwahati Github | Website
 - Served as a **core member of web operations**, managing and maintaining the official website to ensure stability and smooth performance during high-traffic event periods.
 - Developed the main landing page and multiple event-specific pages with dynamic components (carousels, count-downs) to enhance user engagement.
 - Implemented **REST API integration** and backend modules for event registrations, accommodations, and data persistence, enabling seamless real-time data handling.
- IITG HAB: Centralized Mess & Hostel Management Platform** May 2025 – June 2025
Coding Club, IIT Guwahati Github | Website
 - Developed a full-stack platform used across **13 hostels** at IIT Guwahati, supporting **6000+ daily users** for QR-based mess verification and complaint management.
 - Built role-based dashboards using **React.js** and **REST APIs**, enabling admins and wardens to track complaints, monitor hostel-wise meal data, and manage workflows efficiently.
 - Deployed backend services on **AWS EC2** with **Nginx, PM2**, and **SSL/TLS (Certbot)**, integrating **JWT + OAuth authentication** for secure and scalable access.
